

COVID-19 SOLUTIONS

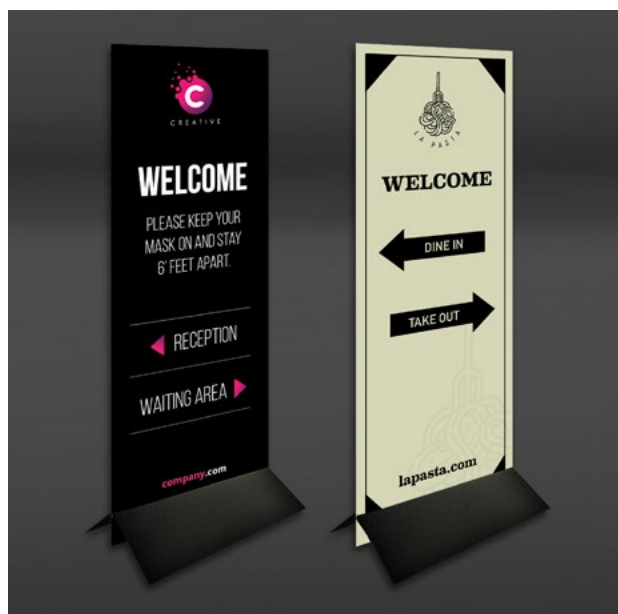

WAYFINDING + FLOOR DECALS

Manage traffic flow in your space and enforce social distancing with effective wayfinding signage and floor decals.

Prepare your business space for foot traffic while adhering to proper social distancing guidelines. Implement bold wayfinding signage to clearly direct customers and staff to where they need to go. Signage provides an opportunity for additional branding as well as relevant messaging and directions for anyone visiting your organization.

Floor decals manage traffic and facilitate appropriate distancing. These solutions are produced quickly, with custom graphics that reflect your brand.

Signage and floor decals can be implemented and removed quickly and are easily swapped out as messaging changes. These simple opportunities to guide in-person experiences and promote your brand are valuable and flexible solutions to keep your business functioning.
